Stevenson/Wolfers, *Principles of Macroeconomics*

**Table of Contents**

**PART I – Foundations of Economics**

**Chapter 1**
The Core Principles of Economics
1.1 A Principled Approach to Economics
1.2 The Cost-Benefit Principle
1.3 The Opportunity Cost Principle
1.4 The Marginal Principle
1.5 The Interdependence Principle

**Chapter 2**
Demand: Thinking Like a Buyer
2.1 Individual Demand: What You Want, at Each Price
2.2 Your Decisions and Your Demand Curve
2.3 Market Demand: What the Market Wants
2.4 What Shifts Demand Curves?
2.5 Shifts versus Movements Along Demand Curves

**Chapter 3**
Supply: Thinking Like a Seller
3.1 Individual Supply: What You Sell, at Each Price
3.2 Your Decisions and Your Individual Supply Curve
3.3 Market Supply: What the Market Sells
3.4 What Shifts Supply Curves?
3.5 Shifts versus Movements Along Supply Curves

**Chapter 4**
Equilibrium: Where Supply Meets Demand
4.1 Understanding Markets
4.2 Equilibrium
4.3 Predicting Market Changes

**PART II - Analyzing Markets**

**Chapter 5**
Welfare and Efficiency
5.1 Evaluating Public Policy
5.2 Measuring Economic Surplus
5.3. Market Efficiency
5.4 Market Failure and Deadweight Loss
5.5 Beyond Economic Efficiency
Chapter 6
Gains from Trade
6.1 Gains from Trade
6.2 Comparative Advantage
6.3 Prices are Signals, Incentives, and Information
6.4 How Managers Can Harness Market Forces

Chapter 7
International Trade
7.1 Comparative Advantage is the Foundation of International Trade
7.2 How International Trade Shapes the Economy
7.3 The Debate About International Trade
7.4 International Trade Policy
7.5 Effects of Globalization

Chapter 8
Inequality, Social Insurance, and Redistribution
8.1 Measuring Inequality
8.2 Poverty
8.3 Social Insurance, the Social Safety Net, and Redistributive Taxation
8.4 The Debate About Income Redistribution

PART III - Economic Growth and the Long Run

Chapter 9
Sizing Up the Economy Using GDP
9.1 GDP and the Macroeconomy
9.2 GDP Measures Total Spending, Output, and Income
9.3 What GDP Captures and What it Misses
9.4 Real and Nominal GDP
9.5 Millions, Billions, and Trillions

Chapter 10
Economic Growth
10.1 Economic Growth Facts
10.2 The Ingredients of Economic Growth
10.3 The Analytics of Economic Growth
10.4 Public Policy: Why Institutions Matter for Growth

Chapter 11
Unemployment
11.1 Employment and Unemployment
11.2 The Dynamics of the Labor Market
11.3 Understanding Unemployment
11.4 The Costs of Unemployment

Chapter 12
Inflation and Money
12.1 Measuring Inflation
12.2 Using Various Measures of Inflation
12.3 Adjusting for the Effects of Inflation
12.4 The Role of Money and the Costs of Inflation

PART IV - Microfoundations of Macroeconomics

Chapter 13
Consumption and Saving
13.1 Consumption, Saving, and Income
13.2 The Micro Foundations of Consumption
13.3 The Macroeconomics of Consumptions
13.4 What Shifts Consumption?
13.5 Saving

Chapter 14
Investment
14.1 Macroeconomic Investment
14.2 Tools to Analyze Investments
14.3 Making Investment Decisions
14.4 The Macroeconomics of Investment
14.5 The Market for Loanable Funds

Chapter 15
The Financial Sector
15.1 Banks
15.2 The Bond Market
15.3 The Stock Market
15.4 What Drives Financial Prices?
15.5 Personal Finance

Chapter 16
International Finance and the Exchange Rate
16.1 International Trade and Global Financial Flows
16.2 Exchange Rates
16.3 Supply and Demand of Currencies
16.4 The Real Exchange Rate and Net Exports
16.5 The Balance of Payments

PART V - The Business Cycle
Chapter 17
Business Cycles
17.1 Macroeconomic Trends and Cycles
17.2 Common Characteristics of Business Cycles
17.3 Analyzing Macroeconomic Data

Chapter 18
IS-MP Analysis: Interest Rates and Output
18.1 Aggregate Expenditure
18.2 The IS Curve: Output and the Real Interest Rate
18.3 The MP Curve: What Determines the Interest Rate
18.4 The IS-MP Framework
18.5 Macroeconomic Shocks

Appendix 18A: Aggregate Expenditure and the Multiplier
18a.1 Macroeconomic Equilibrium
18a.2 Aggregate Expenditure and Income
18a.3 The Multiplier
18a.4 From Aggregate Expenditure to the IS Curve

Chapter 19
The Phillips Curve and Inflation
19.1 Three Inflationary Forces
19.2 Inflation Expectations
19.3 The Phillips Curve
19.4 Supply Shocks Shift the Phillips Curve

Chapter 20
The Fed Model: Linking Interest Rates, Output, and Inflation
20.1 The Fed Model
20.2 Analyzing Macroeconomic Shocks
20.3 Diagnosing the Causes of Macroeconomic Changes

Chapter 21
Aggregate Demand and Aggregate Supply
21.1 The AD-AS Framework
21.2 Aggregate Demand
21.3 Aggregate Supply
21.4 Macroeconomic Shocks and Countercyclical Policy
21.5 Aggregate Supply in the Short Run and the Long Run

PART VI - Macroeconomic Policy

Chapter 22
Monetary Policy
22.1 The Federal Reserve
22.2 The Fed’s Policy Goals and Decision Making Frameworks
22.3 How the Federal Reserve Sets Interest Rates
22.4 Unconventional Monetary Policy

Chapter 23
Government Spending, Taxes, and Fiscal Policy
23.1 The Government Sector
23.2 Fiscal Policy
23.3 Government Deficits and Debt
